MORE ABOUT 956 POLK ROAD 31

You will find laminate flooring throughout the home for easier cleaning and maintenance and spray foam insulation for additional energy efficiency and noise reduction. The home offers central heat and air, an ornate standalone wood stove in the main living area, and a wood-burning furnace in the walk-out basement. A well, with a water softener system, serves as the water supply to the primary home. The home's metal roof, guttering, vinyl windows, and storm doors provide low maintenance. A covered wood deck expands on two sides for convenient access in and out. Upstairs, you can access the wraparound deck from the dining room and two of the bedrooms. Downstairs, a partially finished basement has its own separate workshop, pantry, open storage area, windows, and an access door to the two-car attached covered carport.

MORE ABOUT 956 POLK ROAD 31

Aside from the primary home, on the back of the property, there is a 50' x 100' bardominium, which is currently near completion. This space is waiting for the new owners to bring their custom interior finishing touches. The 5,000± square foot metal building features red iron trusses, vinyl windows, entrance doors, walk-out sliding doors, and two stories of wood framing, electrical, and plumbing. The custom cedar and black iron stair banister nods to the potential of this home, giving you the option to take the design direction towards modern and clean or rustic. The framed living space is two stories. There are two bay doors, a side entrance door, and windows for additional natural light on the shop side of the building. A water well, septic, and electrical service is in place separate from the primary home. An approximately 30' x 30' pad is already in place for an additional structure, carport, or parking pads.

In addition to the home and bardominium, you will find a rustic barn with a nice, usable loft, partial concrete flooring, and a small corral. The 31± acres include mature hardwoods with fenced and cross-fenced pasture. Several portable storage buildings are on-site, along with a small coop for the chickens. Two ponds serve as a water supply for the livestock and also your own private place to fish. Another building spot offering panoramic views is at the top of the hill where deer have been seen roaming.

With two homes and at least one additional building site, this property can be divided to offer the unique opportunity for investment or multi-generational living.
